WHO WE ARE

Axiva Health Solutions is committed to providing comprehensive and compassionate care for patients requiring infusion therapies such as IVIg, SCIg and Specialty Drugs at home or in an alternative setting.

Our team of tenured pharmacists, nurses and patient advocates work with your practice to develop and implement individualized treatment plans based on your patients condition, lifestyle and time constraints.

We are experienced and knowledgeable about the challenges of chronic and acute disease management. We are licensed in 49 states and the District of Columbia and partner with national and local health plans offering a national footprint with a local feel.

WHAT WE DO

- Perform home or alternate site infusion with care, compassion, tenure, and dedication to achieving optimal results for patients with chronic and acute conditions
- Work with all therapies you may need in your practice including IVIg, SCIg and many more specialty injectables and infusions
- Navigate the insurance maze and guide you and your patients through it- from referrals to authorizations
- Ensure patient compliance and safety
- Educate patients, staff and all partners
- Perform comprehensive care coordination
- Act as advocates for your patients
- Provide pharmacy services and ensure treatment plan oversight
- Provide tenured and compassionate nurses for all infusions
- Collect data to help the entire team optimize treatment plans

Focusing on IVIg/SCIg

AUTOIMMUNE AND NEUROMUSCULAR DISEASES

- Chronic Inflammatory Demyelinating Polyneuropathy (CIDP)
- Multifocal Motor Neuropathy (MMN)
- Multiple Sclerosis (MS)
- Myasthenia Gravis (MG)
- Polymyositis
- Guillain Barre Syndrome (GBS)
- Dermatomyositis
- Stiff Persons Syndrome
- Systemic Lupus Erythematosus
- Small Fiber Neuropathy
- Pemphigus and Pemphigoid
- Common Variable Immunodeficiency (CVID)

...And More

Care, It's What We Do

Axiva focuses on patient care first and foremost. That starts with our highly tenured and dedicated team working with your practice to successfully navigate the complex clinical and administrative processes associated with specialty infusions.

We Will:

Collect the clinical information needed to successfully achieve timely and effective prior authorizations. Axiva does the heavy lifting for your office.

Work with patients to participate in manufacturer programs.

Provide nursing, supplies, and therapy with specialized care.

Our nurses stay for the entire infusion.

Offer flexible nurse scheduling.

Utilize comprehensive disease state management in the treatment of patients.

Offer individualized care plans in conjunction with physicians orders.

Infusion Suite only)

VVYGART

Specialty Infusion Care, When and Where You Need It.

At Axiva, we have intake specialists, registered pharmacists and nurses who specialize in providing world-class care to our patients. We have administered hundreds of Ig treatments to patients in the comfort and convenience of their own homes. All patients are carefully screened to determine if home administration is safe and appropriate for their individual needs. A nurse monitors all home treatments continuously.

Specialty physicians who use Ig

Ig is necessary in aiding the treatment of these illnesses. Antibodies help fight off infection for those whose immune systems are really low due to other treatments or due to the illness itself. These types of specialty physicians use Ig therapy for the following common patient diagnoses:

NEUROLOGY

- Multiple Sclerosis
- Myasthenia Gravis
- Peripheral neuropathy
- Guillain-Barre
- Chronic Inflammatory Demyelinating Polyneuropathy (CIDP)
- Multifocal Motor Neuropathy (MMN)
- Polymyositis

HEMATOLOGY AND ONCOLOGY

- Idiopathic Thrombocytopenic Purpura (ITP)
- Post-bone marrow transplants
- Immune neutropenia
- Myeloma and chronic lymphocytic leukemia

DERMATOLOGY

- Pemphigus Vulgaris
- Psoriatic Arthropathy
- Psoriasis
- Dermatomyositis
- Kawasaki Syndrome

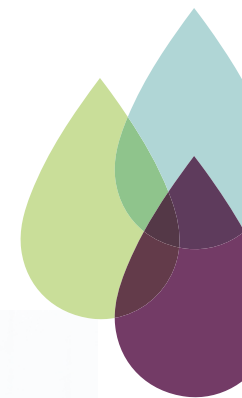

ALLERGY AND IMMUNOLOGY

- Common variable immunodeficiency (CVID)
- Immunodeficiency with increased IgM
- Primary immunodeficiency (PID)
- Congenital hypogammaglobulinemia

RHEUMATOLOGY

- Vasculitis
- Lupus
- Myositis
- Autoimmune uveitis

We Work With Infertility Clinics Utilizing Ig!

Axiva Will:

Collect the clinical information needed to submit for prior authorization of therapy

Offer patients attractive and aggressive self-pay options

Complete infusions in the privacy of the patient's home or in our state-of-the art private infusion suites complete with wi-fi, flat screen TV and heated, reclining massage chairs.

Axiva focuses on patient care first and foremost. That starts with our highly tenured and dedicated team working with your practice to quickly get your patients on service to meet treatment needs in the privacy of their home or at one of our clinics.

Infusions. When and Where You Need it.

This piece is given to the patient to help educate them on process.

Welcome to the Family

WHO WE ARE:

Axiva Health Solutions is committed to providing comprehensive and compassionate care for patients requiring infusion therapies such as IVIg, SCIg and Specialty Drugs at home or in an alternative setting.

Our team of tenured pharmacists, nurses and patient advocates are experienced and knowledgeable about the challenges of chronic and acute disease management.

WHAT HAPPENS NEXT:

- 1 Our Patient Navigator will call you within 1 business day of receiving the information from your physician
- 2 We will navigate the insurance maze for you and submit all of the necessary information to your insurance company for approval. Insurance companies typically take an average of 14 days to make a decision on prior authorizations.
- 3 We will keep you informed along the way
- 4 Once your therapy is approved, our Clinical Coordinator will call you to coordinate the nursing portion of your care
